and your clients
smile more

Restorative Materials

OT 360, Nano Hybrid Universal Composite Code: BODC

UNIVERSAL COMPOSITE is a light curing, radiopaque, nano hybrid composite for anterior and posterior restorations. It contains low shrinkage modified urethane dimethacrylate. The modified monomer also enhances high percent elongation, toughness and reduced shrinkage stress to improve the durability of restorations.

OT 220, Micro Hybrid Universal Composite Code: BOFF

It is a light-curing, radiopaque, micro-hybrid universal composite for anterior and posterior restorations.

OT Flow LC, Flowable Composite Code: BOBF

It is a light-curing, radiopaque flowable composite.

OT Flow Self LC, (Ortho)Flowable Composite Code: BOBFS

It is a self-adhesive light-curing, radiopaque flowable composite. Perfect for bonding orthodontic brackets.

Etch & Rinse Adhesive Code: BOBR

OT Etch & Rinse is the light curing Total etch bonding system. It has an advantage over all fifth-generation adhesives that it contains DMSO so its superb bond strength doesn't collapse after aging.

OT Primer S100 Code: BLOOP

Used for enamel etching and dentin conditioning in conjunction with sealing and direct composite restorations adhesive cementation of lab-fabricated all-ceramic or composite restorations.

All In One Universal Adhesive Code: BOBI

It is a light-cure ethanol/water-based, self-etching, one-step, all in one bonding agent. It can be used reliably in total-etch, self-etch or selective-etch mode for both direct and indirect restorations.

OT Temporary Filling Material Code: BAOH

It is a ready-to-use temporary filling material for temporary filling of the cavity, self-curing with water (under humidity), containing zinc oxide, releasing fluorine and calcium ions. It is designed for short term temporary fillings.

Etching Gel Code: BOEO

Used for enamel etching and dentin conditioning in conjunction with sealing and direct composite restorations adhesive cementation of lab-fabricated all-ceramic or composite restorations.

OT Glass II SC Glass Ionomer Filling Cement Capsule Form Code: BOCO

Resin-modified glass ionomer filling cement. Radiopaque light curing, fluorine release, self-adhesive

OT Glass II LC Light Cure Glass Ionomer Filling Cement Capsule Form Code: BOCB

Cements

OT Glass F1 Radiopaque Glass Ionomer Filling Cement

Code: BOOA

Provides tight and permanent marginal adaptation due to its molecular bonding to enamel and dentin. High wear resistance and adhesion values.

OT Glass L1 Radiopaque Glass Ionomer Luting Cement

Code: BOOC

Good working time, good mixing properties. Its connection to porcelain, zirconia based ceramics or metal is perfect. Cementation of metal based inlays, onlays, bridges and posts.

Resin Based Root Canal Filling Material

Code: CBGF

Radiopaque root canal sealer with high dentine bond strength.

Glass Ionomer Base Filling Cement

Code: BOOG

Radiopaque glass ionomer base liner cement

OT Glass LC Glass Ionomer Liner (Light Cure) Code: BOAG

Light curing glass ionomer based high radiopaque cavity liner and base material for all kinds of restorations (composites, amalgam, indirect restorations) with a high fluoride release.

OT MTA Mineral Trioxide aggregate

Code: BABO

MTA (Mineral Trioxide aggregate)

is a tricalcium silicate-based bioactive MTA repair cement that can be used for vital pulp capping or pulpotomy and other endodontic and indications in primary and permanent teeth.

OT Glass F3 Resin Modified Glass Ionomer Cement

Code: BOOE

It is a radiopaque, light-curing, fluorine-releasing, self-adhesive, resin-modified glass ionomer cement.

Dual Cure Resin Cement

Code: BOAA

Self-adhesive Dual Cure, (self-cure and light cure) resin cement for the cementation of indirect restorations made of high strength all ceramic, composite, metal-ceramic and metal. When cement is used, additional bonding agents are not required

Polycarboxylate Cement

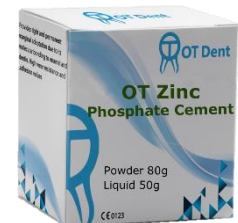

Code: DOOB

It is a radiopaque dental zinc polycarboxylate cement that does not irritate the pulp and provides natural adhesion to the dentin tissue.

Zinc Phosphate Cement

Code: DOOA

Base filling for deciduous teeth and permanent teeth.

Accessories

OT Silicone Putty Code: AOCD

Product List

RESTORATIVE PRODUCTS

BODC	Nano Hybrid Universal Composite	1 x 4 g
BODE	Nano Hybrid Universal Composite Set	8 x 4 g
BOBBO	Hybride Posterior Composite	1 x 4 g
BOGB	Hybride Posterior Composite	3 x 4 g
BOGD	Hybride Posterior Composite	8 x 4 g
BOBF	Flowable Composite	1 x 2 g
BOBFB	Flowable Composite	4 x 2 g
BOBFS	Flowable Composite	4 x 2 g
BOFF	Micro Hybrid Universal Composite	1 x 4 g
BOFE	Micro Hybrid Universal Composite Set	8 x 4 g
BOBR	Etch & Rinse Adhesive	5 ml
BOBI	Universal Adhesive	5 ml
BIOOP	Universal Primer	10 ml
BAOH	Temporary Filling Material	30 g
BAOI	Temporary Filling Material	40 g
BOEO	Etching Gel	1 x 3 ml
BOEA	Etching Gel	2 x 3 ml
BOEG	Etching Gel	1 x 50 g
BOAG	Glass Ionomer Liner (Light Cure)	1 x 2 g

CEMENTS

BACO	Glass Ionomer Filling Cement Capsule Form	50 capsules
BACB	Light Cure Glass Ionomer Filling Cement Capsule Form	50 capsules
BOOA	Radiopaque Glass Ionomer Filling Cement	15 g / 10 ml
BOOB	Radiopaque Glass Ionomer Filling Cement	35 g / 15 ml
BOOC	Radiopaque Glass Ionomer Luting Cement	15 g / 10 ml
BOOD	Radiopaque Glass Ionomer Luting Cement	35 g / 15 ml
BOOG	Glass Ionomer Base Filling Cement	10 g / 6 ml
BOOH	Glass Ionomer Base Filling Cement	15 g / 10 ml
BOOF	Glass Curing Glass Ionomer Cement	15 g / 6,8 ml
BOAAO	Dual Cure Resin Cement	5 g
BOAA	Dual Cure Resin Cement	11 g
DOOB	Polycarboxylate Cement	80 g / 50 g
DOOA	Zinc Phosphate Cement	80 g / 50 g
CBGF	Resin Based Root Canal Sealer	10 g / 10 ml

ENDODONTICS

OIAE	Ethylene Diamine Tetra Acetic Acid Gel	1 x 3 ml
BAOE	Light Cure Calcium Silicate Liner	1 x 2 g
BAOG	Light Cure Calcium Silicate Liner	4 x 2 g
BAOD	Iodoform Calcium Hydroxide Paste Radiopaque	1 x 2 g
BAOC	Calcium Hydroxide Paste	1 x 2 g
BABO	Mineral Trioxide Aggregate	15 dosage
BAOO	Calcium Hydroxide Capping Powder	10 g / 10 ml
BOHC	Zinc Oxide Eugenol Cement	75 g / 20 ml
OIOE	Sodium Hypochlorite Solution	250 ml
OIOI	Ethylene Diamine Tetra Acetic Acid Solution	250 ml
OIAO	Chlorhexidine Gluconate Solution	250 ml

PROTECTIVE & CARE

BOBC	Colour-Changing Fissure Sealant	1 x 2,5 g
BOABP	Light Cure Fissure Sealant	2 x 2,5 g

BOABA	Light Cure Fissure Sealant	1 x 2,5 g
AOAO	Prophylaxis Paste In Jar	50 g
AOAO.O	Prophylaxis Paste In Jar	240 g
AOAOE	Prophylaxis Paste Capsules	100 pcs
AOAB	Prophylaxis Paste Capsules	200 pcs

PROSTHESIS

OBOA	Temporary Crown and Bridge Acrylic	100 g
OABC	Self Cure Acrylic	500 g
ODOC	Self Cure Acrylic	250 ml
OBEO	Orthodontic Acrylic	1000 g
ODEB	Orthodontic Acrylic	250 ml
OOOD	Heat Cure Acrylic	1000 g
OCED	Heat Cure Acrylic	250 ml
AOAA	Prosthesis Polishing Paste	50 ml
AOAF	Fluoride Varnish	0,4 ml / Brush

A TYPE SILICONE

AOCD	Putty	300 ml base & 300 ml catalyst
AOCE	Extra Light Body Silicone	2 x 50 ml
AOCF	Light Body Silicone	2 x 50 ml

TEETH

OHOH	Acrylic Teeth - Three Layers Dentine Complete Set	28 pcs
OHOI	Isosite & Composite Teeth Four Layers Dentine (Upper and Lower)	6 pcs
OHAO	Isosite & Composite Teeth Four Layers Dentine (Upper and Lower)	8 pcs
OHAB	Isosite & Composite Teeth Four Layers Dentine Complete Set	28 pcs

OTHER PRODUCTS

AOOF	Light Cure Baseplates	50 pcs
AOOF.A	Traditional Dental Baseplates	100 pcs
OEDH	Dental Pomic	500 g
AOAD	Acidulated Phosphate Fluoride Trays	505 ml
AOAE	Neutral Fluoride Trays	505 ml
AOBI	Amalgam Polishing Rubbers	10 pcs

AOBIA	Amalgam Polishing Rubbers	10 pcs
AOBIB	Amalgam Polishing Rubbers	10 pcs
AOBIC	Amalgam Polishing Rubbers	1 pcs
AOBID	Amalgam Polishing Rubbers	1 pcs
AOCO	Composite Polishing Disc	200 pcs
AOCA	Composite Polishing Disc	200 pcs
AOCB	Composite Polishing Disc	200 pcs
AOCC	Composite Polishing Disc	200 pcs
AOOH	Plaque Covers	250 pcs
OIOO	Bibs And Covers	50 pcs
OIOA	Bibs And Covers	80 pcs
OIOB	Bibs And Covers	100 pcs
OEDB	Dental Hard Stone	1 kg
OEOC	Investment Material	2 x 20 kg
AOEB	Cleaning Powder for Measuring Spoon	1000 g
OEBE	Plaster Coaling Solution	110 ml
OEBF	Plaster Coaling Solution	250 ml
OEBG	Plaster Coaling Solution	500 ml
OEBH	Plaster Coaling Solution	1000 ml
OEBI	Plaster Coaling Solution	5 lt
CBAH	Hydrofluoric Acid Gel For Etching Ceramic Restorations	1 x 3 ml
OEDE	Dental Modeling Wax	500 g
OECD	Electrolyt Asit	5 kg
OECF	Kaltaucherer Resin	5 lt
AOFOO	Polishing Brush Lastic IV Webs One Piece	1 pcs
AOFAO	Polishing Brush Lastic VI Webs One Piece	1 pcs
AOBB	Bonding Applicators	100 pcs
AOBH	Amalgam Polishing Rubbers	
AOBHO	Amalgam Polishing Rubbers	10 pcs
AOBHA	Amalgam Polishing Rubbers	10 pcs
AOBHB	Amalgam Polishing Rubbers	100 pcs
AOBHC	Amalgam Polishing Rubbers	100 pcs
AOBO	Interdental Brush	1 pcs
AOAHO	Rolene Polishing Brush Bristle	1 pcs
AOAIO	Rolene Polishing Brush White Nylon	1 pcs
AOOG	Box of RVG Nozzle Covers	500 pcs
AOOG.A	Box Panoramic Plaque Covers	250 pcs
OECO	Investment Termal Expansion Liquid	5 lt
OECB	Duplicating Material	5 kg
OEOA	Framework Investment	20 kg
